

History Markers — Town of Clarkson — Henry Martin House

Fig. 1. This center of this [panoramic] view is toward _____.

Fig. 2. This view is toward the north. Photo: © 2015 R.W. Black

Fig. 3. The approximate location of the Martin marker is shown in red.

Quick look:

Henry Martin House

3773 Lake Road (Route 19), west side,
viewer facing north.

Originally placed: ????

By: United States Department of the Interior ?
(was this actually placed privately?)

History Markers — Town of Clarkson — Henry Martin House

Fig. 4. This figure shows the intersection of Lake Road (Route 19) and Ridge Road (Route 104) at three different times in early Clarkson history and are shown for sake of comparison and potential relevance.

Maps shown are small sections of entire Monroe County maps downloaded from the United States Library of Congress web site. The names accompanying the dates in red are the principal author or publisher and have been added by the Museum.

History Markers — Town of Clarkson — Henry Martin House

Some Old Houses Of Monroe County --- Town Of Clarkson

In the Village of Clarkson

Henry Martyn House --- Present Owner Ernest Fowler

This is the third in the row of old brick houses on the Lake Road. It has a beautiful doorway and once had an ornamental fence similar to that of the Jewett place, but all the old houses had fenced in yards originally. This house is said to have been built in 1829 by Gustavus Clark for his partner in the mercantile business, Henry Martyn.

Henry Martyn was born in Woodbury, Conn. but grew up in Peacham, Vt. in the fall of 1823 or the winter following, he came to Western New York. He had an uncle living in Avon and through him succeeded in getting a situation as clerk in a small place east of Lockport.

Fig. 5. The text in this document was copied and pasted with some reformatting by the museum from a pdf on-line document which itself was a transcription[?] from the original document by Helen Hastings.

Date of original document: 1938

PRODUCTION NOTES

Fig. 1 & 2. Camera: Canon 5D Mark II

Fig. 3. Drawn in Adobe Illustrator™, derived from:
<http://www.clarksonny.org/pdf/zoning-map/clarkson-zoning-map.pdf>

Fig. 4. Each map was enlarged by Frisch until the approximate area could be selected. Each map selection was then copied and placed in one Adobe CS4 Photoshop™ document—each map on a different layer. Using transparency, each layer was rotated and scaled to match each other, as best as could be done. Individual maps were then arranged sequentially, the entire figure cropped, the map date and name added, the layers flattened and the image saved as a 14.375" w x 28.375" h, 72ppi jpg file with "maximum" quality. The file placed in this document is 31.2% of that size.

Fig. 5. All text was copied by Frisch directly from the on-line source indicated, then pasted into this document. The on-line document is believed to be a transcription, not a scan of the original document. The font, and line spacing does not conform to the on-line document, spellings do.

DOCUMENT NOTES

All images were placed in an Adobe CS4 InDesign™ document by Frisch. That document was then exported as a pdf file with 150ppi resolution and compression at "high" quality.
