Early school location maps; Town of Sweden, New York

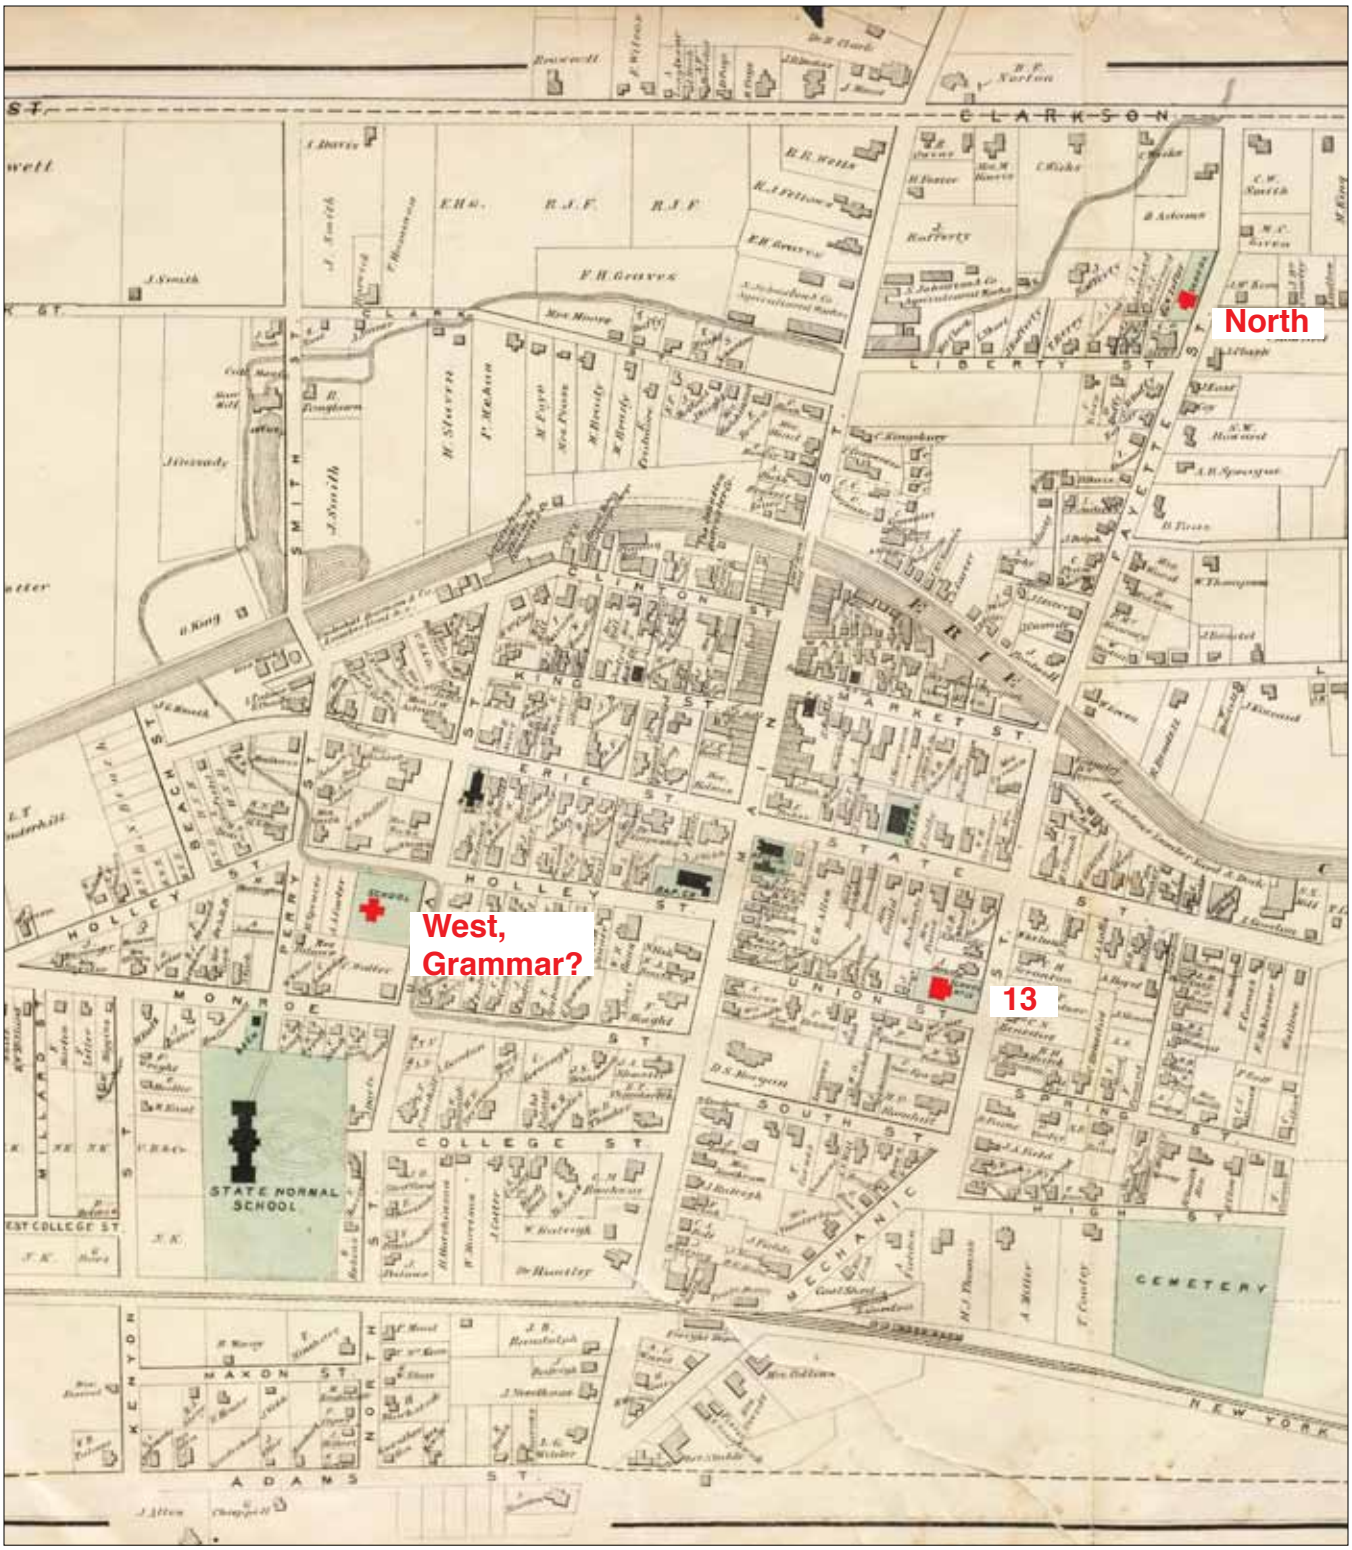

EARLY SCHOOLS — TOWN OF SWEDEN

This simplified road map of today [2013] shows early Town of Sweden and Village of Brockport schools as located on the 1872 Beers map of the Town of Sweden. That Beers map shows Redman Road as continuing south to Reed Road (the section shown here as a dotted line) during that time.

The 1872 Beers map on page 3 shows tinted areas that indicate the school districts associated with each school.

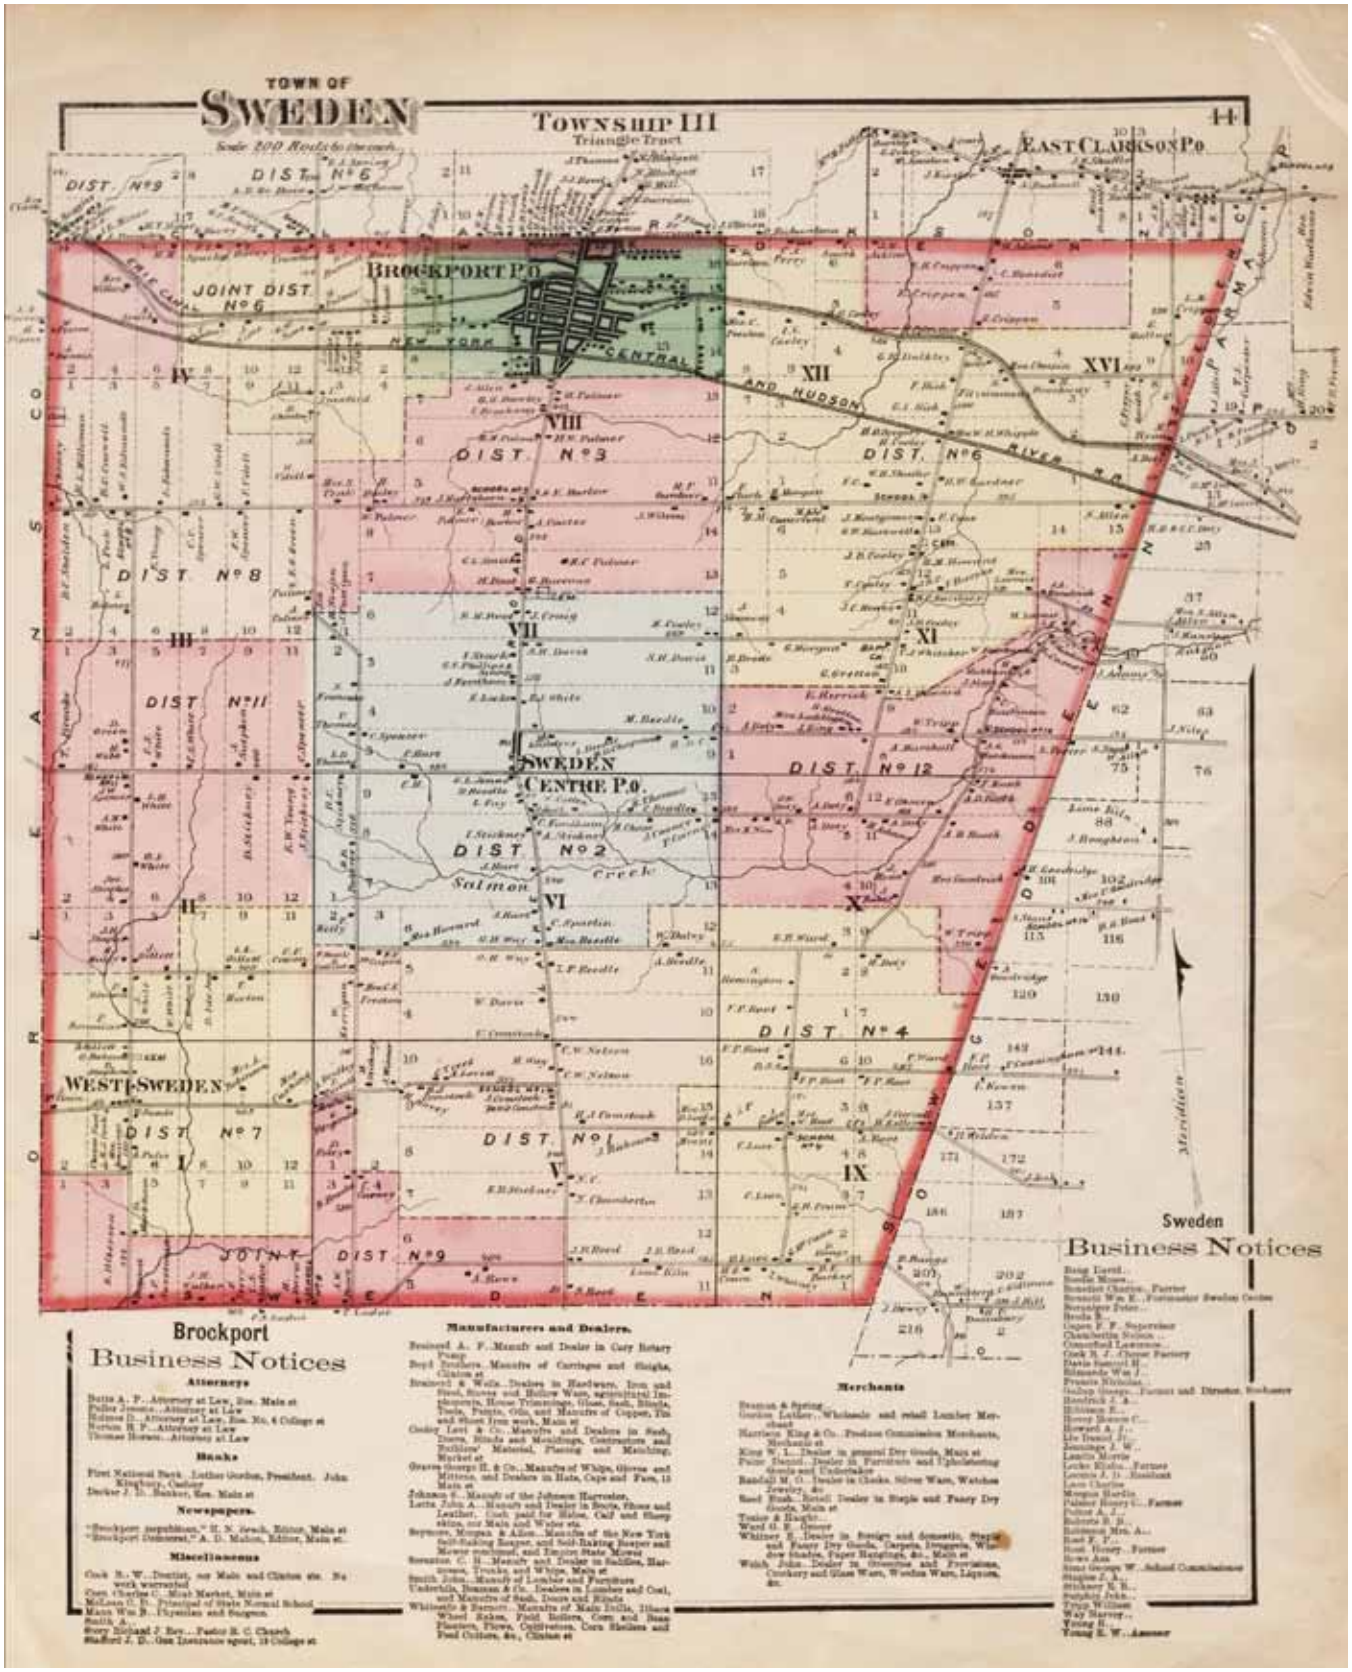

The 1872 Beers map of Brockport on page 2 shows the detailed location of the various schools in the Village.

Early school location maps; Town of Sweden, New York

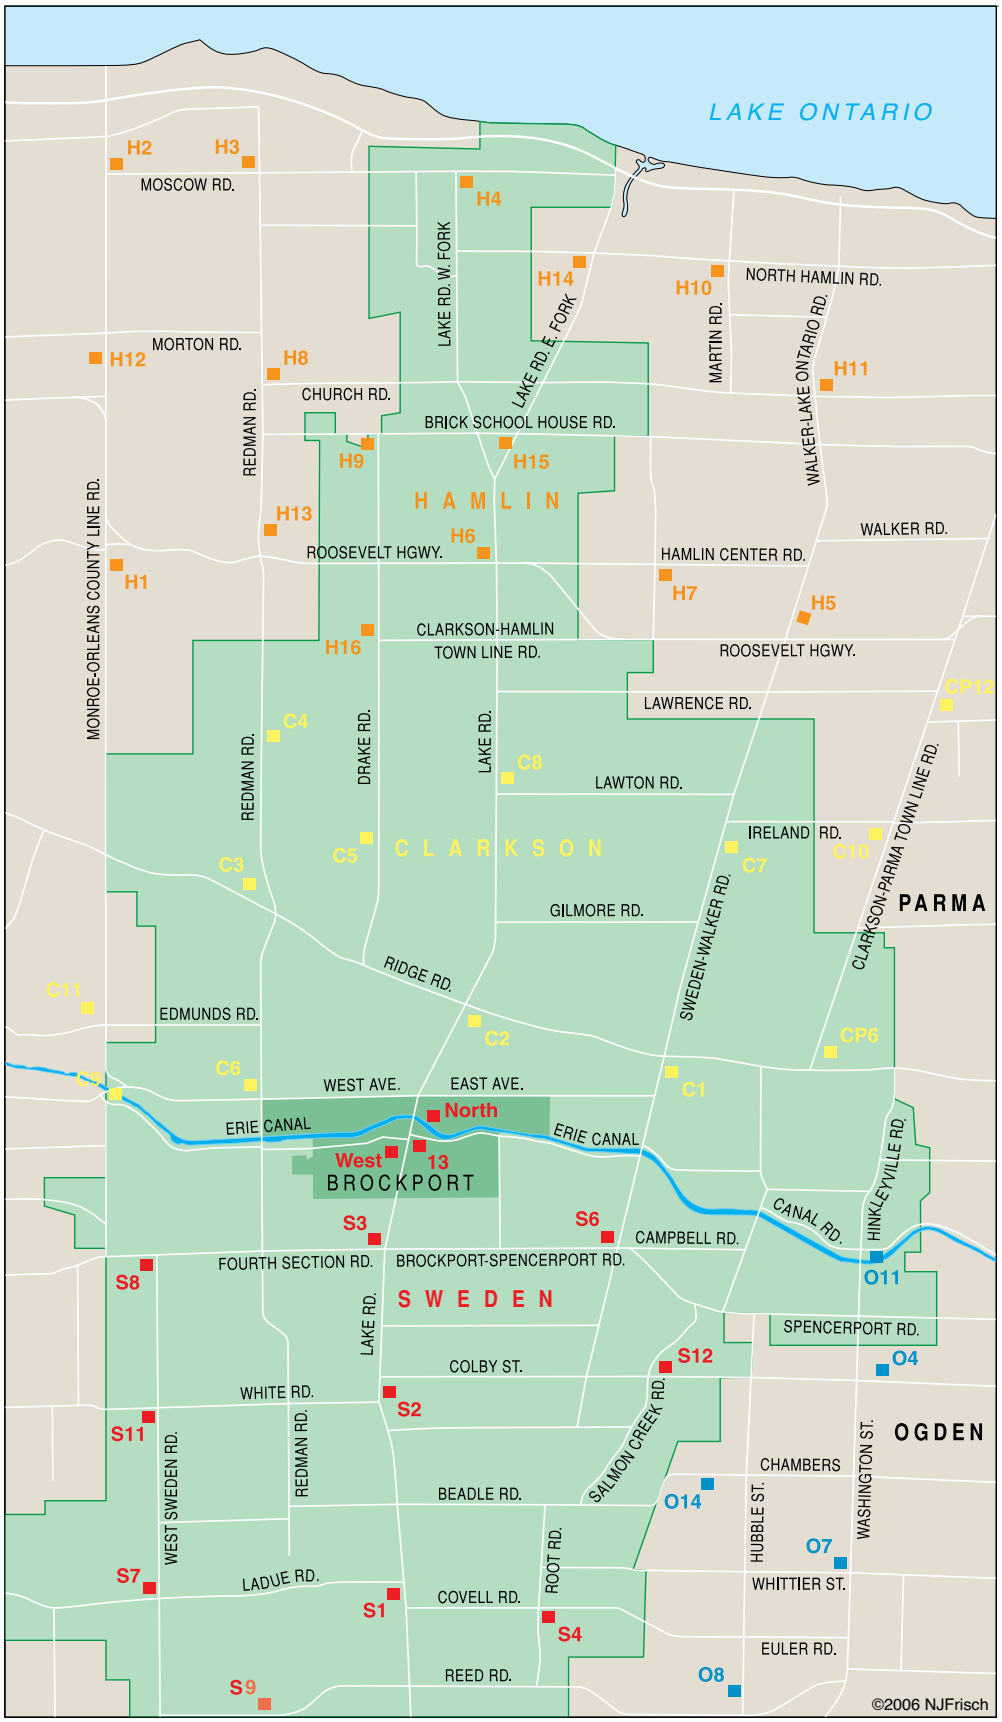

This 1872 Beers map of Brockport shows the North School, #13 School and the West School [Grammar School?] in red. (need to re-label directly on map). Need to explain relationship of West and Grammar school, and where the future Campus School and Nativity School would be located (add dates), using a different color and perhaps dotted lines.

Early school location maps; Town of Sweden, New York

1872 Beers map of the Town of Sweden.

Early school location maps; Town of Sweden, New York

The Brockport Central School District, as of 2006, is shown here in green. The District includes the Town of Sweden, and portions of the Towns of Clarkson, Hamlin, Parma, Ogden and other municipalities. Also shown are the one-room school houses, by number, in the Towns of Hamlin (orange); Clarkson (yellow); Sweden (red) Ogden (blue) and one in Clarkson-Parma (CP12 in yellow).

School locations and numbers are derived from "Atlas of Monroe County" published by F. W. Beers, NY 1872.

Some school numbers and locations have changed since that time; some school buildings no longer exist. Others have been repurposed.

TO DO:
-- Why are there no schools in Sweden numbered 5 & 10?
-- What is each school's street address (facing where)?
-- Need dates: Erected, dedicated, first used, last used, demolished.
-- History of other use/ownership.
